EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jason C. Chumney on December 10th, 2007.

The application has been amended as follows:

In claim 7, line 4 the word 'plus' has been replaced with "and".

Claims 21 -26 have been cancelled.

Applicant reserves the right to file a divisional application to the non-elected invention represented by groups II and III.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claims 1 - 7 and 9 are allowed because the closest prior art fails to teach and or suggest the tetrahydro-naphthalenyl derivatives of formula (I). The search indicated no prior art available in producing the instant product(s) where, N is attached directly to 7 - hydroxy -5,6,7,8-tetrahydronaphthalen-1-yl group when, N' is attached to a substituted biphenyl moiety and as embodied in the instant claims, thus rendering the instant invention to be unobvious.
